

FROM THE PRESIDENT

Hi Everyone,

Happy New Year to you all! We marked the transition to 2023 with our Annual Energy Outlook, which was back in-person at Raytheon in Waltham for the first time since January 2020. We heard presentations from five excellent speakers that **covered grant funding for efficiency projects, the forward outlook for energy supply costs, benchmarking tools from the EPA, and even a crash course on nuclear power.** Thank you to everyone who attended this meeting and helped to make it a hit – the audience was more engaged than I can ever remember and had great questions for the presenters!

As we get settled into the new year, AEE New England is excited to **roll out some fun new meeting topics to round out the 2022-23 meeting season.** A primary focus of ours when planning these meetings has been to **diversify the venues** and we're happy to announce **three new locations over the next four months**, including a beautiful office/laboratory building in Cambridge in February, and Keurig Dr. Pepper's headquarters in Burlington in April. Our goal is to make these meetings **accessible to more of our member base and help create a more fun atmosphere than the traditional hotel setting.**

Last but certainly not least, we will soon be launching a **Sponsorship Campaign**, and you should see an email come out over the next few weeks with details. We're **gearing up for scholarship season in the Spring** and bringing on additional sponsors will help us increase the total of our scholarship grants to local students. In addition to scholarships, our sponsors also help subsidize our monthly meetings and professional certification programs.

We greatly appreciate the support we've received from our past and present sponsors as well – thank you as always.

See below for a list of upcoming events. We hope to see you there!

-John Maw

CWEEL UPDATE

Andrea Moshier - CWEEL Lead

CWEEL New England are looking forward to a great 2023 and **celebrating our second anniversary this spring!**

Join our kickoff event on Friday the 27th. This will be a **low-intensity active networking event, a great chance to connect with other women in energy, and learn about CWEEL.**

We welcome your ideas for 2023 events, **please bring them on the 27th or contact the Advisory group.**

As a reminder, **the Council on Women in Energy and Environmental Leadership (CWEEL) supports the role of women in the energy and environmental industries.**

CWEEL **provides career development for professional women aspiring to leadership roles and mentorship for women pursuing technical education and careers in the energy and environmental fields.**

CWEEL is a division of the Association of Energy Engineers (AEE). When you renew your AEE membership, select the CWEEL option to join. Learn more about CWEEL [here](#).
